

## FutureChem® RMB

### Product Stewardship Summary

#### Chemical Identification

- Chemical Abstract Service (CAS) Number: 136-36-7
- Chemical Name: Resorcinol monobenzoate

#### Description of FutureChem® RMB

FutureChem® RMB is a white free flowing powder with good UV absorption properties for use in cellulosic materials. FutureChem® RMB is packaged by FutureFuel Chemical Company in 84 kg fiber drums.

#### Properties of FutureChem® RMB

- White solid
- Melting Point 132-135°C
- Essentially Odorless

#### Safety & Health Information of FutureChem® RMB

Normal safe handling procedures should be used in the workplace. Workers should follow recommendations of Safety Data Sheets (SDS). Consumers are at little risk of being exposed to FutureChem® RMB under normal conditions of use. The following describes health effects from exposure to FutureChem® RMB.

- Skin Contact: May cause irritation through mechanical abrasion
- Eye Contact: Dust or powder may cause mechanical irritation
- Inhalation: Inhalation of dusts may cause respiratory irritation
- Ingestion: May cause discomfort if swallowed

FutureChem® RMB is not classified as environmentally hazardous.
