

FutureSol® DMM

Product Stewardship Summary

Chemical Identification

- Chemical Abstract Service (CAS) Number: 109-87-5
- Chemical Name: Dimethoxymethane

Description of FutureSol® DMM

FutureSol® DMM is colorless liquid. It is a low boiling solvent containing methanol and water. Its strong solvent properties and good water solubility make the material an excellent candidate for formulated cleaning applications. FutureSol® DMM is packaged by FutureFuel Chemical Company in metal drums or bulk trucks.

Properties of FutureSol® DMM

- Colorless liquid
- Boiling Point 42.3°C
- Ether-like odor

Safety & Health Information of FutureSol® DMM

Normal safe handling procedures should be used in the workplace. Workers should follow recommendations of Safety Data Sheets (SDS). Consumers are at little risk of being exposed to FutureSol® DMM under normal conditions of use. The following describes health effects from exposure to FutureSol® DMM.

- Skin Contact: No adverse effects due to skin contact are expected
- Eye Contact: May cause temporary irritation
- Inhalation: May cause damage to organs by inhalation
- Ingestion: Harmful if swallowed

FutureSol® DMM is not classified as environmentally hazardous.
